Atlas Lumber Co.

Buy an Irrigated Farm FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE:
Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.
Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming.
Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.
Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.
This is the most liberal offer of Irrigated Farm Land on record

Legislation Sought For Municipalities To Give Seed Grain

The government of Alberta proposes passing an act at the present session of the legislature empowering the municipalities and local improvement districts throughout the province, to supply seed grain to farmers in their municipality or district, who have been haled out, or whose crop had been killed by drought. The government will arrange to endorse these municipalities and districts at some chartered bank to obtain money at reasonable rates, the municipality or local improvement district to receive the applications for seed grain, to distribute the grain, take notes for it and make the collections when done.

This is a matter of real importance to this district. Owing to the lateness of the matter coming up things will be rushed, and it is for every farmer who desires seed to make his application now to the secretary of his municipality; this will expedite matters considerably when the necessary legislation is passed. Locally, we believe that an arrangement should be made with the elevators. Whatever way for the distribution of seed is used, if the secretary have the applications in a lot of time will be saved. Mr. J. C. Anderson, E. 4 13-18-9, is the secretary for King municipality, and W. Hutchinson, of Alderson, is secretary for Sunny South municipality.

Larson-Nelson

Mr. A. Larson and Mrs. S. Nelson were united in the bonds matrimony last week at Medicine Hat. L. Karlestad, brother to the bride, was present. The bridal pair will live at the groom's home in the Royal district.

Smith-McKnight

Married at Calgary, Alberta, by Rev. Huntley, in First Baptist Church, on Wednesday, February 20th, Mr. A. A. Smith, of Buffalo, and Miss Elizabeth McKnight, of Toronto, Ont. After March 1st, the bride and groom will reside at their home near Sulfid.

Trying To Change S.D. Name

The school board have been trying for some time to get the name of this school district changed from Carleton to Alderson. The hitch has been in there being another school district of this name. The board have now received word that if they will reimburse the Alderson S.D. the expense of stationery, seal etc., that they are willing to make the change. This, the local board will probably do.

Soldiers Gives Govt. Majority

The result of the soldiers vote in the last Federal election gave the Government another 15 seats. The civilian vote gave 45 which makes the Union government majority 60. The vote in England is not yet out. Lieut. Reilly, the Liberal candidate for this constituency, did not get a single vote. The total vote was 95% government.

May Lose Registration Office

Quite a stir was caused last week when it was known that Medicine Hat and office was among the list of offices to be closed. The city officials and the Board of Trade telegraphed a protest to the Hon. A. L. Sifton. This district will be interested in the outcome.

Sunny South to Get Stallion

(BY OUR OWN CORRESPONDENT)

A new day has been born, and with the glow of the bright light that was ushered in, the farmers of this district grasped the situation, which resulted in them coming together and discussing the advisability of bringing into the district a pure bred sire of the Percheron type. At the meeting called last Monday at Wm. Sharp's home found a few men looking into the possibility to handle the proposition. After some time it was decided to organize a club and a meeting was called for Saturday at W. Whitlock's home and there the club found its way into the district.

The following directors were installed:

President: Edwin Capwell,
Vice-President: A. A. Stewart,
Secretary: W. W. Stokes,
Treasurer: W. W. Clarkson,
Directors: A. W. Maynard, W. Whitlock, M. P. McLaren, Wm. Sharp.

The Club will be known as the Sunny South Breeding Club.

Mrs. G. Beattie has had to go to California for her health. George is in Vancouver and will be back here early spring.

The Alderson U.F.A. are holding a Social in Johnson's Hall on Thursday, February 28th. All members and friends are invited.

There are lots of things happen that we don't hear of. Where are you going? Where have you been? What's going to happen? What do you know? Drop in and tell us, it may be of interest.

School Inspector J. E. Hodgson, is a visitor in town these days to the great pleasure (?) of some.

I have 10 bushel of Kitcheners seed wheat for sale. Raised from seed purchased from Seager Wheeler, P. Bateman, 19-4-10. First come first served.

Herman von Willucki has moved to Medicine Hat where he has a position at The Rosary.

Do invitation cards and society printing? Yes, and promptly

The Government inspector will be at Sulfid on Monday, March 11th, to inspect stations.

Dr. Meekleburs, the reliable optician and long experienced eye specialist, of Edmonton, will make his next visit to Hotel Alderson on Wednesday, March 13th. Have your eyes examined by him, his charges are very reasonable.

Mr. and Mrs. McEwen and son Wesley are in from Bratus and are staying with Dr. and Mrs. McEwen.

Mrs. Guy Hamilton is sufficiently recovered from her operation to be out of the hospital but will be in Medicine Hat for a few days yet.

There is improvement in the condition of Mrs. Hanson.

Percy Daniels made a business trip to Medicine Hat Tuesday.

After Roy Woolven was wounded Mrs. Woolven wrote to the authorities in England to send him home. Mrs. Woolven has now received word that Roy is out of convalescence and we sent back on duty in France next month.

RUBBER BOOTS WORK SHOES

Be prepared for a wet spring.

This is not a mere guess as you are no doubt aware, after wading snow like we have this winter. If you are looking for footwear that will keep your feet dry, come in and have a look at our lines.

High and Low Rubber Boots

High and Low Leather Boots

Including the Famous ELK SKIN Line

Our prices cannot be beaten on these

ALSO AN EXCEPTIONALLY FINE LINE FOR THE CHILDREN.

Van Brunt Drills

I expect a carload of Drills in the first of the month, so come in and place your order if you want one.

Red Cross Notes

CONDUCTED BY MRS. E. C. HEVY

The Red Cross Whist Drive held on Friday evening, February 22nd was very well attended. The special prizes, donated by Mrs. S. F. McEwen and Mrs. F. W. Drinell, were won by Miss Jessie Cairns and Mr. W. J. Hall. Proceeds for the evening's entertainment were \$12.75. Remember the Whist Drive on Friday evening, March 1st.

Mrs. P. Larson has completed a beautiful hand made dresser scarf and has donated it to the Red Cross Society, to be raffled. Mrs. W. M. Cotter, has charge of the tickets and the scarf can be seen at the post office. Mrs. Cotter will have the scarf on display at the whist drive on Friday evening. Come prepared to take a chance.

The Red Cross badges for sale at the Drug store, are for members only. There are only a few of the last order left. Show that you are a member of the Red Cross by wearing the Red Cross badge. These badges are only fifty cents. Every cent given to this fund is a help at this time; and practically every man, woman and child, by making some trifling sacrifice, some denial of pleasure, or giving up some indulgence, can render the Red Cross that support.

The society acknowledges with thanks the following subscriptions:

DONATIONS	
Mrs. N. E. Stuart	\$2.00
T. T. Pick	\$2.00
ACTIVE MEMBERS	
Mrs. T. H. Harris	2.00
Miss B. Harris	2.00
Miss G. Evans	2.00
ASSOCIATE MEMBERS	
H. B. Brigham	1.00
N. E. Stuart	1.00

Mr. and Mrs. N. E. Stuart and Miss Florence Stuart were visitors in Calgary over the week end.

J. Van Laeen, J. G. and R. Van Laeen made the return trip to Medicine Hat this week.

Mr. and Mrs. M. P. McLaren were in the Hat for a few days this week.

Mr. and Mrs. Trenary and child are in Medicine Hat.

The Alderson News Job Department is able to print a job as good as any city paper. A calling card to a newspaper.

Pearsonville

Born--To Mr. and Mrs. W. Weir, a son.

Again with a leap the Red Cross branch has increased membership.

The membership committee has decided that they will not take "no" for an answer in receiving members so those who not belong had better watch out and have their money ready when they come. At the meeting held at Mrs. Whitlock's last Wednesday, it was decided to hold the meetings for the rest of winter at Mrs. A. Maynard's. The committee that has charge of the work, wish to thank the ladies for the keen interest they are taking in the sewing, which has proved to be the very best.

The well diggers having struck water at Clarkson Brook are at present with Sam Tucker trying to locate water. Wish you luck Sam.

J. W. Clarkson, reeve of S.S.M., arrived home from Edmonton on Tuesday last and reports one of the best conventions ever held on Municipal work. We wish with keen interest the new ideas in our Council this year.

Unpatriotic Newspapers

Reveal Military Plans to Gen. Scouting to Catch a Street Sale

"Much of the way in which it is printed today could be shown into the waste basket with profit," declared George Greer, chairman of the committee on public information in an address before the City Editors' association at Columbus, Ohio.

The starting in private before the informative, and matter of the day, is the one to be given to the public, or else given more before on the market page.

"The exclusive story has in no wise lost its value and there is still those papers that for the brief triumph of a scoop, are willing to endanger the lives of troops, reveal military plans and secrets and poison the morale of the people."

"The announcement in France, of our first transports in Africa, when while others were in the danger zone, came from the crible of a telegraph operator. The belief that our troops were attacked by submarines and that the fourth of July announcement was a hoax, was the work of a correspondent in the field. A British court of enquiry branded him a liar and expelled him from the field."

A Purely Vegetable Pill—The chief ingredients of Farnell's Vegetable Pills are mandarin and dandelion, sedative and purgative, perfectly harmless in their action. They cleanse and purify the blood, and the healthful effect on the secretions of the digestive organs, and on the blood and all who suffer from liver and kidney ailments will find these pills the most effective medicine concentrated form that has yet been offered to the suffering.

Belgian War Dog

Never Once Deserted

Nellie, celebrated war dog, brought to this country by the Belgian army, is now in the hands of Dr. C. D. C. The passing of a member of the military itself would cause much grief among them.

At the first battle of Ypres Nellie fought along beside her owner, a British officer, into the rain of shrapnel and high explosive shells, with only the thought of being near her master.

Nellie lived with the Belgian regiment in the trenches for many months, always ready to "go on duty" twice a day. She was wounded by shrapnel, but she never deserted. Her Major, Dr. C. D. C., brought her to this country with the Belgian army, and she has been with the Belgian army ever since.

An Overlooked Little People

The Inhabitants of Lettonia Are

The Lettish people have great sufferings from the war. Lettonia was a rich country, and the great ports of Riga, Vindava, and Liepaja were responsible for 30 per cent of Russia's pre-war exports. Riga, the chief port of Lettonia, is now occupied by the Germans, and two-thirds of the inhabitants are refugees. Riga, with a population of 350,000, has lost its importance as a port, and the refugees are being sent to the border of the Dvina. There are now 800,000 Lettish refugees, forming the highest percentage of refugees in the world. The German invasions have involved the loss of the property of the people. London Graphic.

With the Fingers!

Says Corns Lift Out Without Any Pain

Some corns, hard corns, soft corns or any kind of a corn can shortly be lifted out with the fingers. If you will apply on the corn a few drops of the freezine, says a Cincinnati authority.

At little cost one can get a small bottle of the freezine, which will positively rid one's feet of every kind of corn, without the pain or soreness or the danger of infection.

This new drug is an ether-compound, which is so gentle that it will not hurt the skin, and it will not break down the tissue and leaving the skin in a flabby condition.

What is Canada Doing?

The Country is Ready for Heroic

Resolving to risk scarcity of food at home in order that our armies may not starve abroad, the United States has determined to send 50,000,000 bushels of wheat to the Canadian people.

What sacrifices are Canadians prepared to make to render life assistance to the United States?

According to competent authorities the food supply in Canada at present is approximately 105,000,000 bushels. For the purpose of the war, the remaining 75,000,000 bushels are required for the purpose of the war.

The food situation has become desperate. According to the official information 50,000 bushels of wheat are required for the purpose of the war.

The time for rescuing declarations of starvation abroad has passed. The country is ready for heroic measures.

Waste, extravagance and luxurious living at home while our armies are so pained by those who were periodically starved—Ottawa Journal.

What You Eat

The Nutritive Value Has No Bearing on the Market Value

A contemporary quote with emphasis the words of a farmer who wanted to know why it is that the bacon of the city market sells at a higher price than the cheese of the country, although a pound of cheese has as high a nutritive value as a pound of bacon.

If that kind of question is impressive here is another of a more striking kind. It is Dr. W. B. Keeney, says, a pound of oatmeal has as much nutritive value as two dozen eggs, while the oatmeal sells for ten cents and the eggs for \$1.60.

It is evident that as regards food, the nutritive value has no bearing on the market value. There is more in eating than in the price of the food.

When one of the diet doctor knows what the nutritive value of food is, and regulates the diet. When a country's diet of food is not put on diet, then everybody begins to take an interest in the nutritive value of food.

Reached His Goal

The stranger on a walking tour across Canada, who was "talking on a gate," and began to ask the farmer, "You are a farmer, I suppose?"

"No, not now. I used to be, but I gave it up."

"Well, you don't seem to be very busy. I have a lot of time on your hands, haven't you?"

"Ever do any work?"

"Once a day."

Ask for Frozen Fish

Prejudice Against It Is Due to Improper Handling in Homes

The food controller, in his report to the fish committee of his office, is encouraging the consumption of frozen fish in Canada. The fish is not so much as it is in the case of the larger campaign to increase consumption of all kinds of fish in order to release beef, bacon and other meats for export to the Allies.

An increased demand for frozen fish should result in the decrease in market price as an abundant supply is available. Many people have a prejudice against frozen fish simply because they do not understand the proper method of handling it. What may have been the practice in the past, the present method of freezing fish shortly after they are caught prevents deterioration and the fish is delivered to the consumer in ideal condition.

To prepare frozen fish for cooking it should be put in cold water and left for several hours in order that frost may be entirely thawed from it. It will then be in practically the same condition as before it was frozen. Many people make the mistake of pouring hot or boiling water, on frozen fish in order to break down the tissue and leaving the fish in a flabby condition.

H. B. Short, manager of the Dwyer branch of the Maritime Fish Corporation, has been visiting the food controller, and is conferring with the members of the fish committee, in order to discuss the activities of the fishermen in the winter months.

At present 75 ships with something like 500,000 fish are in the water. This represents an enormous catch of fish which might readily be sold in a frozen condition over the country. According to his estimate, the fisherman is producing a surplus of 100,000 tons of fish.

Only about a quarter of the catch is now being marketed in its fresh state. The food controller is trying to make arrangements through the shipping board, to get the surplus of fish sold in its frozen state.

SCRAP IRON

You can reap double profit by shipping before March first.

Work demand that we get one hundred cars mixed scrap for February.

Freight rate limit, and I don't believe that I shall ever be dry or warm again. Still, I'm as fit as a fiddle to picture this man's life, the narrow deck, swept by the spume, the swift destroyer buffeted by the heavy waves, the cold, the never-ceasing lookout for the murderous submarine.

All this is the day's work. It is accepted without a grumble. "I'm as fit as a fiddle," think what these men, the soldiers and the sailors, and patriots our domestic sacrifices appear! What are we asking to do? We are asking to find our way to the state at a generous rate of interest to my country.

As a vernacular there is nothing so potent as Mother's Warm Oil. For the most delicate child without fear of injury to the constitution.

California Efficiency

There is an earnest in San Diego who carries his profession to excess. He has a girl who lives in Los Angeles. He visits her every Sunday and writes every day.

Man Power For the Land

The Need for Organized Effort Becomes More Apparent

A well organized staff of men under the food controller has been working to solve the problem of saving grains and meat for export to Europe. The larger problem of increasing production of foodstuffs for the independent farmer. As the situation becomes more acute the need for organized effort becomes more apparent. The food controller's movement control—justifiable only in such a crisis as the present—will

To justify such action it is imperative that the farmers first do all that lies in their power to bring the soil back into its up to the fullest limit. Practically every district has an organization which can take the initiative in planning the campaign for soil conservation up to the fullest limit. Whether it be the local association of grain growers, an agricultural society or a co-operative body the executive should take the responsibility of planning and carrying out the campaign. The matters demanding attention are:

- 1.—An adequate supply of seed material of the varieties suited to the district to be tested for vitality and examined as to purity from weed seeds.
- 2.—Full and timely preparation for the coming year. An increase in their sown spaces. An increase in

3.—All the available labor in each locality to be carefully canvassed and the co-operation of residents of towns and villages secured. Experiences of last season show that many will volunteer for a few days or a few weeks. It is even possible to curtail business during seeding and harvesting to enable employees

factories, stores and offices to assist farmers. Also make the labor want of the district known at an early date, the provincial labor bureau will be glad to furnish information, secure and distribute labor.

4.—Finally if it is the opinion of the farmers that some measure of relief service be required, send resolutions to the government in Ottawa. More than sufficient meat could be secured in the cities. Authority were given to draft the meat from the city and the meat were brought up on farms and had experience enough to make the use of the land. Also in the cities thousands of unemployed men could be released for food production.

Whatever measures are to be adopted, the government must be decided upon quickly. The responsibility lies on the federal and provincial governments to mobilize

labor. They must, however, make the most of the family unit. As indicated above, the strongest impetus to the movement must come from the individual farmers through their organizations. — *Montreal Free Press Herald.*

Experimental Farms Furnish Canada's Seed

Estimated They Will Directly Produce One-half of Requirements of Dominion

Supplies of field roots and vegetables, formerly obtained from Europe, are now seriously reduced in the warring countries have driven

efforts to food production. Hon. A. Crerar, minister of agriculture, has accordingly authorized the Dominion experimental farms to proceed with direct production of one-half Canada's estimated requirements. In addition to the growing of seed supplies on the chain of experimental farms under the supervision of trained officers, the director, J. H. Grisdale, will provide or prove the seed stocks used by

Effort is being centred in British Columbia, which is specially adapted to the production of sweet and waxy potatoes. Descriptive notes of the agricultural department of provincial university will direct growers and inspect their seed. Minimum prices have been fixed, cash prices are the cost of production thus providing protection to the grower but leaving him free to sell on a higher market. The present wholesale prices being much higher than the prices guaranteed, should lead to a further incentive to growers.

It is hoped that a surplus of certain hardy kinds, which are pro-

ed to better advantage in the
climate of Canada, may be p
And for by exchanging with
United States. The department
agriculture is co-operating with
seed stocks committee at Wash
in this respect and also in
securing of accurate information
to the whole seed situation.

Dairy Business in Saskatchewan
Since 1907, when the supervi

creameries in Saskatchewan was over from the Dominion government by the provincial government the dairying industry has grown to an almost incredible extent. In 1929 there were four creamery operations with only 213 patrons; there are twenty creameries, 7,500 patrons, and in addition cold storage plants in operation.

FALLING IN LOVE WITH YOHO

(1) The Famous Takakaw Falls. (2) Camping under the Takakaw Falls.

AMONGST the Canadian Rockies you meet folk from all over the world. And you really do meet them not just read the tags on their luggage. People who wouldn't dream of following up their inclination to know you if they met you on Michigan Avenue or Broadway, come to introduce themselves. And you meet friends.

McKenzie, at the hotel, told me that he knew everybody from the waters up and when I had to leave and go east again I'd have cried on Sir Donald's shoulder. If he hadn't been, "no thousand feet above sea level and covered with a week's snow at that."

"Yes, but you'll make friends at Field," they told me comfortably. "Mount Stephen will take Sir Donald's place in your heart."

Field is a little bit of a town that looks as though it had been washed up by the Kicking Horse River and thrown at the feet of Mount Stephen and "Mount Stephen" hangs on by means of the long steel rope of the train.

On the trail between Field and Lake Louise, you pass the steepest gate south of the Yoho Valley a few minutes and in Field. But it took us more than half a mile of wester road way to reach there passing on route the aerial silver mine whose great doorway perched hundreds of feet above us looked like a castle's and not a mine's.

Next morning we were up bright

and early for the beautiful drive through the Yoho Valley.

After passing Cache Creek the road turned sharply to the left and we entered the valley that grows narrower and deeper and sweeter and sleepier for close on six miles. Here the crystal Kicking Horse falls into the glacial-muddy Yoho, with a result that reminds you of marble cake.

After passing Cache Creek the road turned sharply to the left and we entered the valley that grows narrower and deeper and sweeter and sleepier for close on six miles. Here the crystal Kicking Horse falls into the glacial-muddy Yoho, with a result that reminds you of marble cake.

At last the road turns right and we enter the valley that grows narrower and deeper and sweeter and sleepier for close on six miles. Here the crystal Kicking Horse falls into the glacial-muddy Yoho, with a result that reminds you of marble cake.

At last the road turns right and we enter the valley that grows narrower and deeper and sweeter and sleepier for close on six miles. Here the crystal Kicking Horse falls into the glacial-muddy Yoho, with a result that reminds you of marble cake.

And then at last we came to Takakaw.

The Indians looked at the swaying curtains of it and they said to one another, "Takakaw" which means "how wonderful." Over on the other side of the valley lies the camp which in a way deserves a "Takakaw" of its own. There are rough beds and little stoves in every tent; there is a single lamp in the centre of the clearing where the slightly fire comes grizzly stories out of the guides.

Not far from camp there is a big stream coming down the mountainside to the left, which, when it hits the valley branches into a perfect family tree of streams, a dozen big ones and a dozen more many grandchildren brooks that run here and there like fresh air excursion kiddies on a farm. Every winter the configuration of the place changes and the streams shoot and begin all over again. No wonder the trail got lost.

We raced over the boulders. But boulders are treacherous things to play with and will bite you in the back. This one didn't approve of being raced over. The worn trunk I turned too—not quite a somersault—landing on my hands and knees in one of the grandchildren-brooks. There was a long but ten minutes silence. I was glad the sun on the stones were strong and drying.

"Takakaw!" I cried, the fountain of my womanly sympathy carefully corked. "Did you go and fall in love with the Yoho too?"

Pearsonville

A letter received by one of the neighbors from Nick Dicks, states that he is enjoying the new home and that the crop is in. The district has been visited with severe weather and some fear that the fruit crop will not be very good.

The meeting of the U.F.A. last week was a success and the following officers for the year were elected: President: A. W. Maynard; 1st Vice-President: A. A. Stewart; 2nd Vice-President: Fred Whitlock; Secretary: W. W. Stokes; Treasurer: W. W. Clarkson; Directors: J. W. Clarkson, Jas. McKinnon, Wm. Sharp, Henry Losier, Wes Whitlock, A. Piel. The regular meeting will be held in the Pearsonville school the last Thursday of each month, meeting called at 7:30 p.m. After May 1st the meetings will be held in the Hargrave school.

The Box Social held in the school house last Friday by the Red Cross was well attended. Proceeds for the evening were \$30.00.

Mrs. F. Ludtke has returned from the hospital and will soon be able to take up her duty in the home. During her absence Mrs. A. W. Maynard had had charge of the children.

Herb McKinney and Tom Rosette are working the Weir mine.

It is reported that Ted Osteloh has rented the Lohle McKinnon farm and will move in the near future from Alderson.

Wm. Cook and Wm. Witham have leased the Hudson's Bay tract the Irish coast, as Wm. Shallen, one of our boys, was on the ship, exact to fence same for pasture.

Wm. Cook and Dave Lockhart returned from Redell, where they have been working in the mine. Dave has gone for a few days to help Mr. Snyder arrange his new home across the river from the Bunglow.

We are waiting for further news regarding the sinking of the U.S. transport ship, recently sunk off the Irish coast, as Wm. Shallen, one of our boys, was on the ship, having joined the U.S. army. Will was always lucky here; hope his luck has not changed!

W. S. Whitlock opened up his home on Friday night for a social evening.

Fred Whittleson, chairman of the Social committee of the U. F. A. announces a musical entertainment in the Pearsonville school on Friday, March 1st, at 8 p.m. Collection will be taken up for the Red Cross Branch. Miss A. Pipes, the teacher, will give a full report of the U. F. A. convention, held in Calgary. This report will be well worth every farmer coming to hear.

Mr. and Mrs. Jas. McKinnon visited Alderson and vicinity last week.
